## **Executive Summary**

### **Mission and Vision**

Revive was founded in late January 2022 after realizing the fact that an enormous amount of scam projects or so called rug-pulls happen on a daily basis in the Binance Smartchain Scene. Revive's ultimate goal is to create a safe environment for crypto investors while also giving scammed investors a chance to recover their losses. Staking and Weekly Lotteries on Sundays give our investors the reason to be a proud Revive longterm holder.

AMAs and KYC service for upcoming projects will also benefit our community to find out about legitimate Revive approved projects that they can safely invest in.

### **Commitment to Security & Compliance**

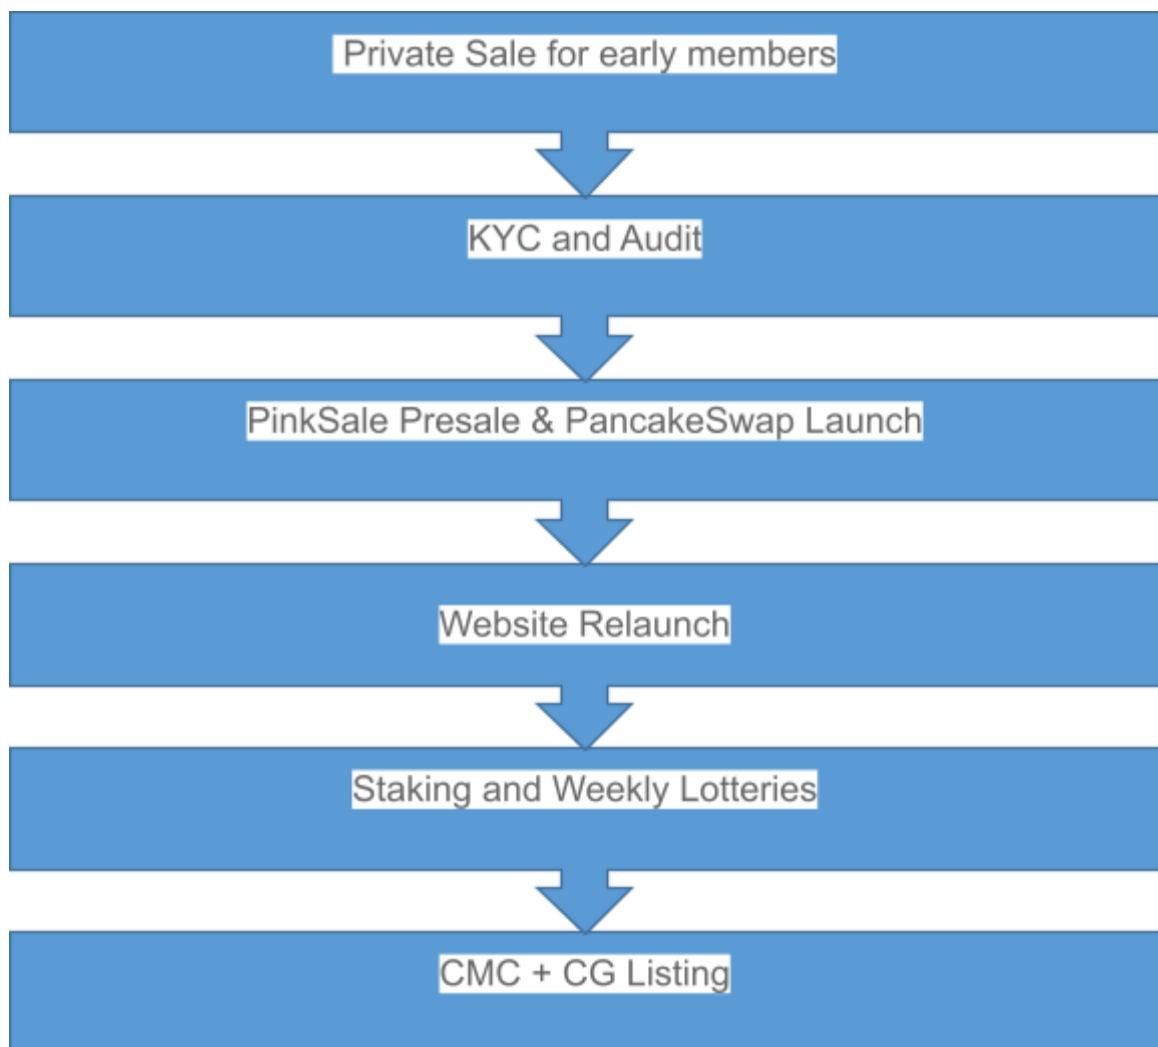

Building trust is the cornerstone of our commitment to our customers - we believe that security and compliance are the foundations of achieving mainstream cryptocurrency adoption. We have completed a detailed security assessment and smart contract audit, which included external penetration testing, threat modeling through to risk control reviews.

## Road Map

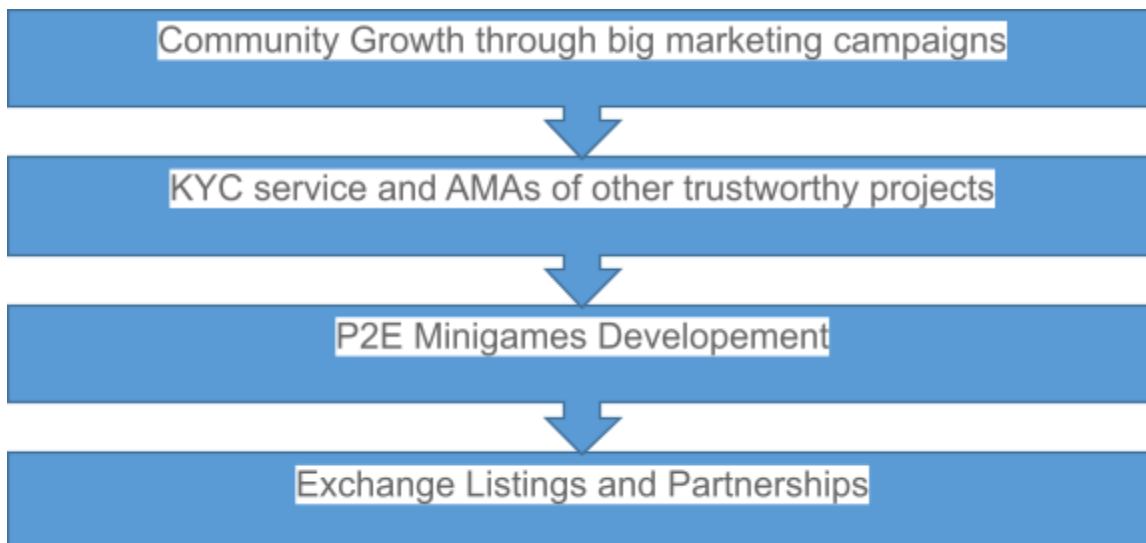

### Overall Milestones

#### Phase 1 – Q1/Q2 2022

**Phase 2 – Q3/Q4 2022**

## REV Token

### Token Creation and Basic Information

Token name	:	Revive
Token ticker	:	\$REV
Issuing entity	:	Revive
Token total supply	:	1,000,000,000 REV
Distribution mechanism	:	Focused on a safe environment for investors (See section below for details on distribution)
Audit & assessment	:	Token BEP20 contract and daily distribution smart contract. (Audited by Auditrate)

\$REV is a crypto token built on the Binance Smart Chain.

## Token Distribution

Wallets	Distribution
Circulating supply	1,000,000,000
Team	4%
Marketing Wallet	5%
Giveaways & Airdrops	7.5%
Private Sale	9.9%
Presale	24%
Liquidity Pool	19.2%
Staking Pool	15%
CEX Listings	15%

## **Tokenomics**

\$REV tokens has a built-in tax that is initiated with every transaction; this transactional tax is 12% and is broken down in the following way:

### **Marketing**

Our smart contract is designed to generate 9% of each transaction for our marketing wallet

### **Liquidity**

As a function of our smart contract 3% of each transaction pushed back into the liquidity pool  
Some call this “as it helps elevate some of the stresses on the token price from large purchases or sell offs

## Token Utility

The REV token (\$REV) is the native token of Revive.

## Revive Staking

\$REV tokens can be staked to \$REV for high interest returns. Buy, Stake and Hold while receiving some of the highest APY rates you've ever seen. Staking \$REV is compared to standard banking CDs except this CD is built into the blockchain and produces up to 88% APY in our Gold tier. Take your investment to another level while holding until we reach new all time highs.
